**The World Economic Forum (WEF) announced back in November 2020 that it had recruited hundreds of thousands of "information warriors" to control the internet. Social media and forums should be checked for "misinformation" and conspiracy content. As a result, efforts are being made to ensure systematic censorship such as closures and blocking.**

The controversial dictator of the World Economic Forum (WEF), **Klaus Schwab**, announced in **the first year of the pandemic that** he would expand the bitter war for information sovereignty. Only one source should determine what the truth is – that is the World Economic Forum itself. **According to the World Economic Forum, misinformation on the internet is an “infodemic” that is “potentially deadly” and requires a “cure”.** Interestingly, the choice of words also reminds quite precisely of **Hubert von Goisern's most recent statements**. Since the beginning of the pandemic, there has been a “wording” in relevant circles that probably has to be adhered to worldwide. So it shouldn't come as a surprise if politicians, but also artists close to the state, keep hearing the same words and sentences.

### #1 Trick To Cut Electric Bill

A secret way to cut electricity bills takes Canada by storm.

In the publication, the WEF said it had recruited around 110,000 "volunteers" who would ensure that the opinions of dissenters around the world are discovered, tracked and censored. **So-called "conspiracy forums" but also comment sections on important online platforms such as YouTube would be**

membership, now 66 percent are said to be in favor of Van der Bellen

**targeted by these " digital first responders"** . Numerous people with differing opinions, but also people who have only asked "the wrong" questions, can sing a song about it.

The digital militarization of the WEF was announced **in a podcast by UN Communications** Director Melissa Fleming.

*So far we have recruited 110,000 information volunteers and we are equipping these information volunteers with the knowledge of how misinformation spreads and asking them to act as a kind of digital first responders to help in the areas where misinformation is being spread.*

Fleming and the WEF directly use the fascist language known from the darkest times of the 20th century:

*The milieu of information is polluted; we have to clean it!*

The **podcast offers perfect insight into** how the WEF and UN have been controlling information worldwide for years and systematically suppressing questions and counter-opinions.

**Health Tip: Colloidal Silver  
25ppm**

This colloidal silver is professionally produced. The well-known branded devices from Colloidmaster are used. This means that silver dispersions of the highest quality can be offered. The accuracy of the Colloidmaster silver generators has been confirmed by several laboratories.

**Can be ordered from Kopp-  
Verlag throughout Europe and  
free of shipping costs!**

The methodology also followed the recommendations of the infamous Event 201, in which the course of the Covid pandemic was practiced in advance with the most important statesmen and protagonists in the world: **Event 201 - The "Corona Crisis" as a long-planned trigger event**.

It is fascinating how openly these "global players" announced and propagated their agenda. **These efforts for total information control are clearly contrary to democracy, fundamental rights and human rights.** These are deeply communist and dictatorial measures that have nothing to do with a pluralistic society and democratic opinion-forming. Nevertheless, they were welcomed and applauded by almost all system media - certainly also because they are dependent on government grants.

*Misinformation happens in our friends and families. So we have to find strategies to recognize it first of all. And second, as active citizens, just like we wear masks to protect others, we must be the good citizens, the active vector that fights back in our daily lives.*

Mark Little, Mainstream Journalist, WEF Podcast

### **Crisis prevention tip for professionals: Hyundai power generator!**

Portable emergency power generator for power supply during power outages. The generator is easy to use, weighs only 20 kilos and is therefore mobile, runs comparatively quietly and the housing is robust.

**Can be ordered from Kopp-Verlag throughout Europe and free of shipping costs!**
